## BACKGROUND OF CORPORATE DEBTOR

Corporate debtor was originally incorporated as M/s Showman Clubs & Inns Pvt Ltd, promoted by Victory group under the leadership of Mr. Pramod Goel. On 3<sup>rd</sup> Feb'2006, Ghaziabad Development Authority (GDA) awarded the project to a consortium namely SCIPL Consortium of which members were different entities and the lead developers being SCIPL i.e. Corporate Debtor. Over the period of time composition of consortium members have changed as of now there are 4 consortium members. In terms of the mutual understanding of Consortium Members, more specifically defined in the registered Consortium agreements, IHCPL is exclusively responsible for development, construction, marketing, sale, management and maintenance and operation of the Project, accordingly, the present proposal is conceived considering total saleable area till FAR of 1.92. The Socio Culture Area of the project is non-saleable and non-transferable. The Project is being constructed upon a plot of land admeasuring 5.08 hectares located at Plot No.16, Indirapuram, on the NH-24 bypass. The project has following pre-conditions and development requirements:

45% area to be allocated to socio-culture purpose

27% area to be allocated for recreational purpose

28% area to be allocated for commercial purpose

During recent stress in real estate sector, corporate debtor managed to honour its obligation and constructions were completed within committed timelines except for some situations wherein reason for delay were beyond the control of corporate debtor as exorbitant demands were raised by GDA on different occasions. One revelation out of above discussion is that the corporate debtor was made to pass through the troubled waters at the instance of GDA.

As the GDA continued to play a stringent role in saddling corporate debtor in a financial crunch, an application was filed by M/s Diamond Traexim Pvt Ltd before the Hon'ble NCLT for

recovering amount given by it to another company for which corporate debtor stood as guarantor. An otherwise viable project was dragged into insolvency proceedings because of liquidity crunch. It is acceded fact that Completion of the project is key and will bring value maximisation. Failure of any resolution plan during insolvency proceedings will cause prejudice to the creditors of corporate debtor. Restoring back the management of corporate debtor in the hands of shareholders shall be the most appropriate disposition of the problem. Project has the potential of honouring all the financial and operational commitments made hereunder in the leadership of shareholders.

This proposal envisages solution of the problems faced by corporate debtor, satisfaction of all the stakeholders in timely manner by shareholders which cannot be achieved, should the insolvency proceeding keep on running. Besides being far better resolution than what are being witnessed under IBC mechanism specifically real estate industry, present proposal is the most appropriate and viable solution for corporate debtor.

## ADDRESSING CAUSE OF DEFAULT

Corporate debtor was brought to the verge of Insolvency on account of factors beyond the control of it. In a sluggish real estate market coupled with exorbitant demands raised by GDA brought the corporate debtor to its knees. Due to such extortionate demands, even a part of the constructed area had to be demolished.

Project of corporate debtor has huge potential to generate enough cash flows so as to meet its financial and operational obligations. The liquidity issue faced by corporate debtor can be addressed if the current financial obligations can be rescheduled. Only if all the creditors can put their heads together and decide to reinstate the management, construction can be completed for benefit of allottees and dues of all creditors can be settled.

Corporate debtor shall make necessary application to GDA to achieve additional FAR of 1.92. Part of the additional saleable area shall be liquidated and cash flows will be utilised for completion of project and honouring financial commitments to creditors. The outstanding receivables dues from the allottees and other parties shall also be realized to increase cash inflows. Need based additional funds shall be raised during the implementation period.

The present proposal is being submitted on the basis of presently achievable FAR of 1.92. We are quite sure that the achievable FAR in future shall get enhanced due to Transit Oriented development in the vicinity of project. This in turn will result in overwhelming increase in cash flows, wealth maximization and satisfaction of all the stakeholders. Besides GDA has come out with scheme of One Time Settlement (OTS) of Dues on 07/02/2020, which has put an end to the dispute with the Corporate Debtors with respect to land dues and other penal demand.

Every stakeholder is humbly requested to absolve corporate debtor and its management from legal proceedings for smooth implementation of proposal.
